Euri Lighting

54W REPLACEMENT

LED ET5-2150H

Lamp Class: T5 Hybrid (A+B)

5000K CCT

Product Description

A smart energy-saving alternative to traditional fluorescent"lighting, the Euri Lighting ET5-2150H outputs high lumens for low watts. With hybrid technology, this 4-foot LED tube makes for uncomplicated installation with or without a ballast. Shatterproof glass and built to last 50,000 hours, Euri Lighting's ET5-2150H reduces energy and maintenance worries with every use. See Euri Lighting ET5-2140H for Bright White (4000K).

NSF · UL · 5 YEAR

Estimated Energy Cost: $2.89–3.19 per year

Frosted Glass Lens

LED Hybrid Tube

Hybrid technology reduces maintenance expenses and allows adaptable installation methods whether a ballast is present or not
