LED Panel
2 ft. x 2 ft.

Drop Ceiling Installation Steps

1. Check the fitting bag against the parts list.
2. Compare ceiling against specifications to ensure ceiling meets installation requirements. See chart below.

3. Remove ceiling panel down.

4. Insert fixture at an angle up into ceiling and lower into place.

5. Confirm that fixture is seated flush in the ceiling channels

Recessed Frame Installation

The automatic test function is controlled by internal single chip microcomputer. Depending on the luminescent color of the LED indicator, It displays the working state and determines whether there is an exception.

Color	State
●	<i>Red stable: charging mode</i>
☀	<i>Red flashing: failure as below Battery is not connected Battery is defective Load failure during emergency mode, open circuit/short circuit</i>
●	<i>Green stable: battery fully charged</i>
○	<i>Red and Green off: discharging mode or mains supply disconnected</i>

Test switch

Under normal working condition, the lamp will enter the discharge state by pressing the test switch. Release the switch and automatically return to the charging state. In the discharge mode, the discharge will be switched off according to the test switch for more than 3 seconds.
