Please see Fig 1

- a. Base
- b. Bottom tube
- c. middle tube
- d. Upper tube
- e. Lamp cup
- f. Glass shade
- g. E26 LED Lamp (2*12W)

FIXTURE ASSEMBLY

Note: To remove wire slack from between the base, upper and middle tubes, and neck, pull the cord from the base after connecting the pieces together.

1. Align the base, bottom tube, upper tube, and the neck.
2. Screw in the bottom tube into the base.
3. Screw in the middle tube into the bottom tube.
4. Screw in the upper tube into the middle tube.
5. Screw in the lamp cup into the upper tube.
6. Screw in the lamp Shade and it will lock together.
7. Rotate the clip clockwise and then tighten the screw.
8. Install the E26 LED lamp into the socket.

E26 LED LAMP INSTALLATION

A- Insert the E26 base of the lamp into the holes of the socket.
B- Twist the lamp clockwise and it will lock securely in place.

Note:
Please install the correct wattage E26 LED lamp shown on the label
